Downtown Development Authority (DDA) Request for Grant Funding

Application Process:

The following provides instructions for completing and submitting the application materials requesting Downtown Development Authority (DDA) grants. An application is required for each separate project request. Applicants are required to contact the Town Staff for a preapplication conference prior to submitting the DDA Application Form.

Important things to note:

- The application will not be scheduled for a DDA meeting until Staff determines that the application is complete and ready for DDA review.
- Applicants are highly encouraged to submit the Pre-Application to Staff for review. Once Staff has approved your pre-application you will present your application to the DDA Board for their input.
- Applications require two DDA meetings. The DDA meets once a month.
- Applicants must provide a majority of the funding for the project.
- Grant funds will typically not be paid out until the project is 100% complete and the applicant has submitted a final report and any other items required by the DDA and Staff. Progress payments may be allowed only in extraordinary circumstances and solely at the discretion of the DDA.
- Applicants are expected to operate, manage and maintain the Project in a reasonable state of repair for the purposes specified. The applicant is expected to continue the use of the Project for the long term.

DDA Grant Projects:

DDA grant funded projects include the development of public facilities and other improvements to public or private property, which in the opinion of the DDA, will aid and improve the downtown development area. DDA grant funded projects are intended to spur new development within the DDA district that would not otherwise occur without DDA assistance.

DDA Grant Funding Authority:

Projects must be consistent with DDA priority goals and objectives, and deliver a clear public benefit. The DDA will evaluate proposed projects and financial assistance against the following DDA criteria:

1. Applicant's project is highly desirable, and
2. Applicant's project is consistent with the plans and objectives of the DDA, and
3. Applicant's project may not be otherwise economically viable without DDA funding
